hattitude

knits for every mood

CATHY CARRON

Today's knitters are looking for fast, fun projects that express their unique personalities. **Hattitude**, designer Cathy Carron's emotionally-charged collection of 40 fabulous and fun-to-knit caps, tams, toques, fedoras and berets, delivers just that. Each pattern offers a unique take on the author's signature sculpted hat techniques; using shaping, color, detail and texture to custom create a hat to fit every mood.

Hattitude contains designs spanning all skill levels and offers both beginners and more advanced crafters hours of knitting enjoyment. Fabulous photos, step-by-step instructions and a solid explanation of basic hat-making tips and techniques ensure great results.

Projects include:

- **Outgoing:** A vivacious multicolored cap in textural stitches.
- **Mysterious:** A chic angora cap to slip on when going incognito.
- **Lively:** A colorful stocking cap with a playful twist on traditional Fair Isle technique.
- **Nostalgic:** A retro-inspired tweed cloche with leather trim.

Cathy Carron's knitwear designs have appeared in *Vogue Knitting*, *Knit. 1*, *Knit Simple*, *Interweave Knits* and *knitscene* magazines. She's the author of *Hip Knit Hats* and *Knitting Sweaters From the Top Down*. Cathy lives in New York City with her husband and two daughters, one of whom, Lydia, modeled for **Hattitude**.
