Never too old to *Knit*

Beautiful Basics for Baby Boomers
edited by Karin Strom

Join the countless other women and men in their prime who are discovering (or rediscovering) the craft of knitting! The only book of its kind on the market, *Never Too Old to Knit* is the ultimate how-to guide designed specifically for baby boomers who never learned to knit or who are returning to the flock after having put their needles aside. In addition to covering all the basics, it provides a larger-type format, timely discussions on the health and stress-relief benefits of knitting, and eighteen classic projects—from darling baby gifts to simple scarves and sweaters for both men and women.

This useful reference proves that it's never too late to learn how to knit!

Karin Strom is Editor-in-Chief of *Yarn Market News*, the yarn industry's most influential trade publication, and a highly respected veteran of the yarn and knitting worlds.
