Knits from a **Painter's Palette**
Modular Masterpieces in Handpainted Yarn

Maie Landra
Koigu Wool Designs

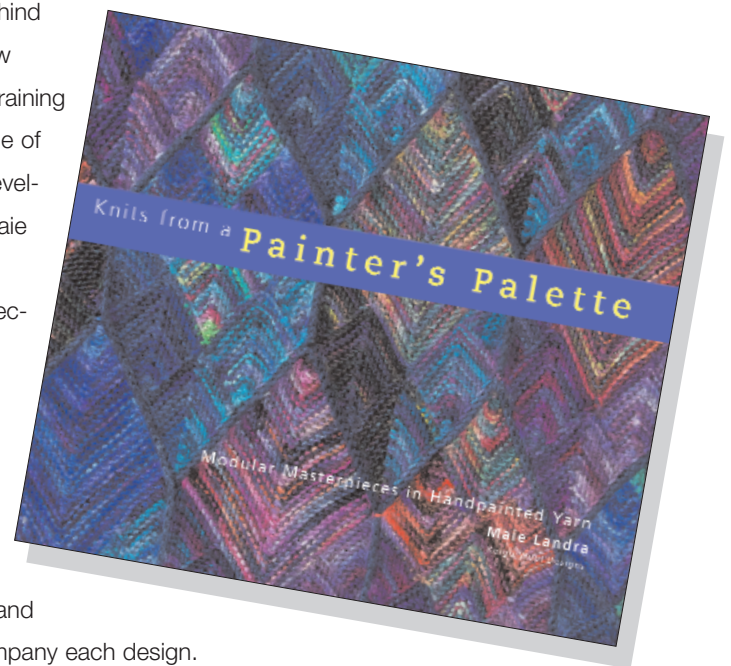

Koigu Wool Designs has won a devoted worldwide following—not only for its renowned family business of making one-of-a-kind hand-dyed yarn, but also for matriarch Maie Landra's indelibly original knitwear designs.

Knits from a Painter's Palette chronicles the rich family story behind Koigu Wool Designs, detailing how Maie's Estonian heritage and art training led her to develop a signature style of hand-dyeing yarn. It traces the development of the business, which Maie now runs together with daughter Taiu from their farm in a remote section of Ontario. The book also showcases more than twenty-five stunning garment patterns using Koigu's signature modular knitting techniques.

Detailed instructions, gorgeous full-color photography, and helpful tips from the author accompany each design.

This is the book knitters everywhere have been waiting for!

maie Landra of Koigu Wool Designs creates beautiful wearable art from her farm outside Toronto, Ontario, where she also oversees the manufacture of Koigu's world-famous handpainted wool. Her spectacular, colorful designs have won her a worldwide following.
