VOGUE® KNITTING  
BAGS TWO

*on the go!*<sup>™</sup>

With over 500,000 copies sold, *Vogue Knitting On the Go!* presents a sequel to follow up our popular first book of knitted handbag fashions. While designer handbags are all the rage, the price tags that come with them can be prohibitive. Now *On the Go! Bags Two* translates both classic styles and today's hottest trends into more than twenty accessible patterns that will appeal to knitters of all skill levels: an elegant evening purse with a dainty scallop pattern; a felted basketweave messenger bag; a '60s-style handbag with all-over bobbles, knit up in an eye-catching orange; a trendy boho-inspired purse with beaded fringe; and many more.
